

A New Record of *Eryx jaculus* (Reptilia: Boidae) in Bulgaria

Borislav Y. Naumov

Abstract. A finding of two specimens of *Eryx jaculus* (Linnaeus, 1758) at the Ostar Kamak Hill, Eastern Rhodope Mts. in June 2002 is reported. Habitat type of the locality and morphological data of the specimens are given.

Key words: *Eryx jaculus*, new locality, South Bulgaria.
