Instructions to the Authors

General Information

Submissions to *Acta zoologica bulgarica* can be works with subject matter dealing with the basic fields of zoology, ecology of aquatic and land animals, parasitology, biology of development, population genetics, animal evolution, and new methodical contributions in zoology. Manuscripts are accepted on the assumption that they have not been published elsewhere nor have been submitted for publication in any other journal. Manuscripts must conform strictly with the instructions to authors and will be sent to the editor. Papers with systematic content should follow the *International Code of Zoological Nomenclature*. Incoming manuscripts are initially judged by the editor. If the manuscript is acceptable in principle, it will be forwarded to referees for evaluation. After final edition and approval by the editorial board, the manuscript will be accepted for publication. The editor reserves the right to make editorial changes. Authors agree, after the manuscript's acceptance, with the transfer of copyright to publisher. Manuscripts, proofs, reviews, etc., concerning editorial matters should be addressed to the Editorial Office.

Four categories of contributions are published in *Acta zoologica bulgarica* with the following volume of standard manuscript pages: **1.** Research papers: 15-20 pages long including the list of literature, figures, captions to figures and tables (on separate sheets); **2.** Review papers (invited or consulting with editor before submitting): 10-20 pages; **3.** Short communications (notes): up to 6 pages; **4.** Book reviews: 2-3 pages. Information about scientific events past or forthcoming will also be accepted.

Tables: They must not repeat information already presented in the figures or in the text. Each table must be self-explanatory and as simple as possible, it should be double-spaced within an A4 page size. No fold-outs are accepted. Tables must be numbered consecutively.
