Instructions to the Authors

General Information

Submissions to *Acta zoologica bulgarica* can be works with subject matter dealing with the basic fields of zoology, ecology of aquatic and land animals, parasitology, biology of development, population genetics, animal evolution, and new methodical contributions in zoology. Manuscripts are accepted on the assumption that they have not been published elsewhere nor have been submitted for publication in any other journal. Manuscripts must conform strictly with the instructions to authors and will be sent to the editor. Papers with systematic content should follow the *International Code of Zoological Nomenclature*. Incoming manuscripts are initially judged by the editor. If the manuscript is acceptable in principle, it will be forwarded to referees for evaluation. After final edition and approval by the editorial board, the manuscript will be accepted for publication. The editor reserves the right to make editorial changes. Authors agree, after the manuscript's acceptance, with the transfer of copyright to publisher. Manuscripts, proofs, reviews, etc., concerning editorial matters should be addressed to the Editorial Office.

Manuscripts must be submitted in correct English on a data medium (CD or mail) for PC. The following formats are accepted: Winword, Word Perfect, InDesign. The pages must be numbered in Arabic numerals. Positions within the text of figures and tables should be indicated. Generic and specific names must be cited completely once in the text and should be typed in italic. Family names of authors of taxa and for publications listed in reference must be in SMALL CAPITALS, but never for collectors, preparators, acknowledgements, etc.

Three categories of contributions are published in *Acta zoologica bulgarica* with the following volume of standard manuscript pages: 1. Research papers: 20 pages maximum long including the list of literature, figures, captions to figures and tables (on separate sheets); 2. Review papers (invited or consulting with editor before submitting): 10-25 pages; 3. Book reviews: 2-3 pages. Information about scientific events past or forthcoming will also be accepted.

The manuscripts should conform to the following format:

The standard order of sections should be: Introduction, Material and Methods, Results, Discussion (or Results and Discussion), Conclusions (optional), Acknowledgements, References.

Tables: They must not repeat information already presented in the figures or in the text. Each table must be self-explanatory and as simple as possible, it should be double-spaced within an A4 page size. No fold-outs are accepted. Tables must be numbered consecutively. They should be typed on separate sheets and enclosed after the bibliography. An explanatory caption, located on the top of the table, should be provided.

They should conform to the size of the type area (16.5 x 24 cm) which is the limit for all illustrations. Magnification should be shown by scale bars. Colour illustrations are not accepted. Figures must be numbered consecutively and should be provided with an explanatory legend on a separate sheet (titled 'Text under figures'). Each illustration must be labelled on the back with the name(s) of the author(s), title of the manuscript, and number of the illustration.

All tables and figures must be referred to in the text, or any of the separate file.

Citations and References

Each citation in the text (including synonymy lists) must be accompanied by a full reference in the list of references and vice versa. The text citations are as follows: BURESH, ZONKOV (1941) or (BURESH 1941: 35) or (BURESH 1941) or (BURESH 1941, IVANOV 1996, PETROV 1956) or BURESH *et al.* (1949), if three authors or more. The references should start on a separate page. They should be arranged alphabetically by the author's family name(s), and chronologically. In case of papers written in other than Latin letters, if there is an English (or German, or French) title in the summary, it may be used.
