Instructions to Authors

General Information

Acta Zoologica Bulgarica publishes contributions in systematics and phylogenetics, zoogeography and faunistics, terrestrial ecology and behaviour, aquatic ecology, parasitology, palaeozoology, zoomorphology and developmental biology, conservation biology, applied zoology and other branches of zoology dealing with diversity, ecology and evolution of animals. The geographical scope of the journal is worldwide but a priority is given to the Bulgarian and Balkan fauna as well as the fauna of associated regions (e.g. Black Sea, Danubian Basin and Southeast Europe). Descriptions of new zoological methods, short reviews of zoological books and information about scientific events are also accepted. Manuscripts are considered on the assumption that they have not been published elsewhere and have not been simultaneously submitted to another journal. Manuscripts must conform strictly with the instructions to authors before being sent to the editor. Papers should follow the *International Code of Zoological Nomenclature* (Fourth Edition, 1999). Incoming manuscripts are initially judged by the editor. If the manuscript is acceptable as corresponding to the scope of the journal and representing a major contribution deserving publication in an international journal, it will be forwarded to reviewers for evaluation. After the approval of the final version by the editorial board, the manuscript will be accepted for publication. The editor reserves the right to make editorial changes. Authors agree, with the acceptance of the manuscript, that the copyright is transferred to the publisher. Manuscripts, proofs, reviews and other correspondence concerning editorial matters should be addressed to the Editorial Office, e-mail actazoologicabulgarica@gmail.com.

Manuscripts

Manuscripts must be submitted in correct English by e-mail. The following formats are accepted: Winword, Word Perfect, InDesign. The text should be left-justified, font size 12, no column or page breaks, double-spaced (c. 30 lines per page), without word hyphenations, A4 format. The pages must be numbered in Arabic numerals. Places of figures and tables within the text should be indicated. Generic and species names must be spelled out at least once in the text and should be in italic. Family names of authors of taxa should be in regular font.

Four categories of contributions are published, with the following size of standard manuscript: 1. Research articles: max. 20 pages, including the list of references, figures, captions to figures and tables (on separate sheets); 2. Review articles (invited or consulted with the editor before the submission): 10-25 pages; 3. Short communications: up to 8 pages; 4. Book reviews: up to 3 pages. Information about scientific events, past or forthcoming, will also be accepted (up to 3 pages). The manuscripts should conform to the following format:

Title: It should be concise and enough informative. Superior taxa should be noted in the title in parentheses, e.g. (Order: Family).

Author(s): Full first name(s), middle initials and surname(s) in bold and italic.

Address(es): As complete as possible, including e-mail address(es).

Abstract: It should consist of only one paragraph of maximum 15 lines, briefly describing main results and conclusions with no description of methods, discussions, references or abbreviations.

Key words: Normally 3-6 items suitable for information-retrieval system, not repeating already those contained in the title.

The standard order of sections should be: Introduction, Material and Methods (including Study Area, if relevant), Results, Discussion, Conclusions (optional), Acknowledgements and References.

Tables: They must not repeat information already presented in the figures or in the text. Each table must be self-explanatory and as simple as possible, it should be double-spaced within an A4 page size. Tables must be numbered consecutively. They should be typed on separate sheets and enclosed after the references. An explanatory caption, located on the top of the table, should be provided.

Illustrations: Lines and letters in figures must be able to be enlarged or reduced without reduction in quality. They should conform to the size of the type area (16.5 x 24 cm), which is the limit for all illustrations. Magnification should be shown by scale bars. Illustrations must be submitted in electronic version in TIF format in minimum 300 DPI. Black and white photographs must be sharp, of high quality, presented on plates (maximum 14x17 cm in size). Figures must be numbered consecutively and should be provided with an explanatory legend on a separate sheet (titled 'Text under figures'). All tables and figures must be referred to in the text. The printed version of the journal may contain only greyscale illustration. The electronic version can contain colour versions of the same illustrations.

Citations and References

Each citation in the text must be accompanied by a full reference in the list of references. Each reference included in the list of references should be cited in the text. The in-text citations are as follows (please, note small caps of author's names): (Buresh 1941), (Buresh 1941: 35) [if a certain page should be cited]; Buresh & Zonkov (1941); (Buresh 1941, Petrov 1956, Ivanov 1996) [in chronological order] or Buresh et al. (1949), if three or more authors are cited. The references should be arranged primarily alphabetically by the first author's family name and by year of publication in case of multiple publications by the same author(s). In case of papers written in letters other than Latin, if there is an English title in the summary, it may be used instead. If there is not such a summary, the author's name must be transliterated and the title of the paper must be translated into English; in this case, the original language of the cited reference should be noted in parentheses at the end of the paragraph, e.g.: (In Bulgarian). Examples of bibliographic descriptions of references:

Author A. V. 1990a. Title of the article. Full Title of the Journal 56 (3): 35-105.

Author A. V. & Author C. P. 1990a. Title of the article. Full Title of the Journal 56 (2): 35-105.

Author A. V., Author B. B. & Author C. P. 1990a. Title of the article. Full Title of the Journal 56 (1): 35-105.

Author A. V. 2000b. Title of the book. Place of publication: Publishing House. 220 p.

Author A. V. & Author C. P. 1990. Title of the contribution. In: Editor V. A. (Ed.): Title of the book or volume. Place of publication: Publishing House, pp. 235-265.

Corrections

The (senior) author will receive only one proof for checking (PDF file). Only printer errors may be corrected. The corrected version should be sent back to the journal editor within two weeks.

For more detailed instructions to authors, see the journal homepage: www.acta-zoologica-bulgarica.eu.

CONTENTS

REVIEW ARTICLE

Teodora Trichkova, Rumen Tomov, Vladimir Vladimirov, Hristina Kalcheva & Ahmet Uludağ – ESENIAS and DIAS networks and highlights of the 7th ESENIAS Workshop with Scientific Conference ‘Networking and Regional Cooperation Towards Invasive Alien Species Prevention and Management in Europe’

INVASIVE ALIEN SPECIES TRAITS AND TRENDS; VECTORS AND PATHWAYS FOR INVASIVE ALIEN SPECIES INTRODUCTIONS

Nadja G. Ognjanova-Rumenova, Ingi R. Jónsson, Vaiva Cypaitė, Jón S. Ólafsson, David C. Finger & Teodora A. Trichkova – Valve ultrastructure of *Didymosphenia geminata* (Lyngbye) M. Schmidt: An invasive diatom species in the running waters of Iceland

Antoaneta Petrova & Irina Gerasimova – A naturalised population of *Larix decidua* Mill. (Pinaceae) in the Rhodope Mountains, Bulgaria

Antoaneta Petrova, Vladimir Vladimirov & Alexander Tashev – The Maritime pine, *Pinus pinaster* Aiton (Pinaceae), a naturalised alien on the Bulgarian Black Sea Coast

Vladimir Vladimirov, Malina Delcheva, Valeri Georgiev, Sonya Tsoneva & Chavdar Gushev – *Ammannia coccinea* Rottb. (Lythraceae): the first report for the Bulgarian alien flora

Antoaneta S. Petrova & Zhivko Barzov – *Oenothera laciniata* Hill (Onagraceae), a new alien species to the Bulgarian flora

Vladimir Vladimirov, Boris Assyov & Antoaneta Petrova – First record of an invasive alien plant species of EU concern in Bulgaria: *Heracleum sosnowskyi* Manden. (Apiaceae)

Elina P. Yankova-Tsvetkova, Petka D. Yurukova-Grancharova & Vladimir D. Vladimirov – Embryology of two invasive alien species of *Solidago* L. (Asteraceae) in the Bulgarian flora

Boris Assyov – *Mycena seynii* Qué. (Agaricales: Mycenaceae) in Bulgaria

Dimitar Kozuharov, Roumen Kalchev, Mihaela Beshkova, Marieta Stanachkova, Lyubomir Kenderov, Vasil Vasilev & Teodora Trichkova – Occurrence of the alien freshwater jellyfish *Craspedacusta sowerbii* Lankester, 1880 (Cnidaria: Hydrozoa) in some Bulgarian reservoirs

Petya P. Ivanova, Antoaneta T. Trayanova, Kremena B. Stefanova, Elitsa Stefanova, Violin S. Raykov & Valentina G. Doncheva – Population status of some alien species in Varna Bay, Bulgarian Black Sea Coast (2015-2016)

Bilal Öztürk, Banu Bitlis, Alper Doğan & Neslihan Türkçü – Alien marine molluscs along the Turkish coast, with a new record of *Varicopeza pauxilla* (Mollusca: Gastropoda) from the Mediterranean Sea

Naime Arslan, Cansev Akkan-Kökçü, Deniz Mercan & Deniz Anıl Odabaşı – The non-indigenous and Ponto-Caspian Gastropoda fauna of Lake Sapanca (Turkey), with notes on the Ponto-Caspian Clitellata species in the lake

Maria Th. Stoumboudi, Roberta Barbieri & Eleni Kalogianni – First report of an established population of *Oncorhynchus mykiss* (Walbaum, 1792) (Salmonidae) on the Island of Crete, Greece

Meta Povž – Non-native freshwater fishes in Slovenia

This Supplement is published with the financial support of:

**Financial Mechanism of the European Economic Area 2009-2014
Programme BG03 Biodiversity and Ecosystem Services**

**Project: East and South European Network for Invasive Alien Species – A tool
to support the management of alien species in Bulgaria (ESENIAS-TOOLS),
D-33-51/30.06.2015**

Beneficiary: Institute of Biodiversity and Ecosystem Research, Bulgarian Academy of Sciences (IBER-BAS)

<http://www.iber.bas.bg/>

Programme Operator: Ministry of Environment and Water of Bulgaria

<http://www.bg03.moew.government.bg/>

<http://www.eeagrants.org/>

Through the EEA Grants and Norway Grants, Iceland, Liechtenstein and Norway contribute to reducing social and economic disparities and to strengthening bilateral relations with the beneficiary countries in Europe. The three countries cooperate closely with the EU through the Agreement on the European Economic Area (EEA). For the period 2009-2014, the EEA Grants and Norway Grants amount to €1.79 billion. Norway contributes around 97% of the total funding. Grants are available for NGOs, research and academic institutions, and the public and private sectors in the 12 newest EU member states, Greece, Portugal and Spain. There is broad cooperation with donor state entities, and activities may be implemented until 2016. Key areas of support are environmental protection and climate change, research and scholarships, civil society, health and children, gender equality, justice and cultural heritage.

The content of this Supplement does not reflect the official opinion of the Financial Mechanism of the European Economic Area and the Programme Operator – Ministry of Environment and Water of Bulgaria. Responsibility for the content of the articles lies entirely with the authors.
