Instructions to Authors

General Information

Acta Zoologica Bulgarica publishes contributions in systematics and phylogenetics, zoogeography and faunistics, terrestrial ecology and behaviour, aquatic ecology, parasitology, palaeozoology, zoomorphology and developmental biology, conservation biology, applied zoology and other branches of zoology dealing with diversity, ecology and evolution of animals. The geographical scope of the journal is worldwide but a priority is given to the Bulgarian and Balkan fauna as well as the fauna of associated regions (e.g. Black Sea, Danubian Basin and Southeast Europe). Descriptions of new zoological methods, short reviews of zoological books and information about scientific events are also accepted. Manuscripts are considered on the assumption that they have not been published elsewhere and have not been simultaneously submitted to another journal. Manuscripts must conform strictly with the instructions to authors before being sent to the editor. Papers should follow the *International Code of Zoological Nomenclature* (Fourth Edition, 1999). Incoming manuscripts are initially judged by the editor. If the manuscript is acceptable as corresponding to the scope of the journal and representing a major contribution deserving publication in an international journal, it will be forwarded to reviewers for evaluation. After the approval of the final version by the editorial board, the manuscript will be accepted for publication. The editor reserves the right to make editorial changes. Authors agree, with the acceptance of the manuscript, that the copyright is transferred to the publisher. Manuscripts, proofs, reviews and other correspondence concerning editorial matters should be addressed to the Editorial Office, e-mail actazoologicabulgarica@gmail.com.

Manuscripts

Manuscripts must be submitted in correct English by e-mail. The following formats are accepted: Winword, Word Perfect, InDesign. The text should be left-justified, font size 12, no column or page breaks, double-spaced (c. 30 lines per page), without word hyphenations, A4 format. The pages must be numbered in Arabic numerals. Places of figures and tables within the text should be indicated. Generic and species names must be spelled out at least once in the text and should be in italic. Family names of authors of taxa should be in regular font.

Four categories of contributions are published, with the following size of standard manuscript: 1. Research articles: max. 20 pages, including the list of references, figures, captions to figures and tables (on separate sheets); 2. Review articles (invited or consulted with the editor before the submission): 10-25 pages; 3. Short communications: up to 8 pages; 4. Book reviews: up to 3 pages. Information about scientific events, past or forthcoming, will also be accepted (up to 3 pages). The manuscripts should conform to the following format:

Title: It should be concise and enough informative. Superior taxa should be noted in the title in parentheses, e.g. (Order: Family).

Author(s): Full first name(s), middle initials and surname(s) in bold and italic.

Address(es): As complete as possible, including e-mail address(es).

Abstract: It should consist of only one paragraph of maximum 15 lines, briefly describing main results and conclusions with no description of methods, discussions, references or abbreviations.

Key words: Normally 3-6 items suitable for information-retrieval system, not repeating already those contained in the title.

The standard order of sections should be: Introduction, Material and Methods (including Study Area, if relevant), Results, Discussion, Conclusions (optional), Acknowledgements and References.

Tables: They must not repeat information already presented in the figures or in the text. Each table must be self-explanatory and as simple as possible, it should be double-spaced within an A4 page size. Tables must be numbered consecutively. They should be typed on separate sheets and enclosed after the references. An explanatory caption, located on the top of the table, should be provided.

Illustrations: Lines and letters in figures must be able to be enlarged or reduced without reduction in quality. They should conform to the size of the type area (16.5 x 24 cm), which is the limit for all illustrations. Magnification should be shown by scale bars. Illustrations must be submitted in electronic version in TIF format in minimum 300 DPI. Black and white photographs must be sharp, of high quality, presented on plates (maximum 14x17 cm in size). Figures must be numbered consecutively and should be provided with an explanatory legend on a separate sheet (titled 'Text under figures'). All tables and figures must be referred to in the text. The printed version of the journal may contain only greyscale illustration. The electronic version can contain colour versions of the same illustrations.

Citations and References

Each citation in the text must be accompanied by a full reference in the list of references. Each reference included in the list of references should be cited in the text. The in-text citations are as follows (please, note small caps of author's names): (BURESH 1941), (BURESH 1941: 35) [if a certain page should be cited]; BURESH & ZONKOV (1941); (BURESH 1941, PETROV 1956, IVANOV 1996) [in chronological order] or BURESH et al. (1949), if three or more authors are cited. The references should be arranged primarily alphabetically by the first author's family name and by year of publication in case of multiple publications by the same author(s). In case of papers written in letters other than Latin, if there is an English title in the summary, it may be used instead. If there is not such a summary, the author's name must be transliterated and the title of the paper must be translated into English; in this case, the original language of the cited reference should be noted in parentheses at the end of the paragraph, e.g.: (In Bulgarian). Examples of bibliographic descriptions of references:

AUTHOR A. V. 1990a. Title of the article. Full Title of the Journal 56 (3): 35–105.

AUTHOR A. V. & AUTHOR C. P. 1990a. Title of the article. Full Title of the Journal 56 (2): 35–105.

AUTHOR A. V., AUTHOR B. B. & AUTHOR C. P. 1990a. Title of the article. Full Title of the Journal 56 (1): 35–105.

AUTHOR A. V. 2000b. Title of the book. Place of publication: Publishing House. 220 p.

AUTHOR A. V. & AUTHOR C. P. 1990. Title of the contribution. In: EDITOR V. A. (Ed.): Title of the book or volume. Place of publication: Publishing House, pp. 235–265.

Corrections

The (senior) author will receive only one proof for checking (PDF file). Only printer errors may be corrected. The corrected version should be sent back to the journal editor within two weeks.

For more detailed instructions to authors, see the journal homepage: www.acta-zoologica-bulgarica.eu.

CONTENTS

INTRODUCTORY ARTICLE

- Chassovnikarova T. & Stojanova A.** – Second International Conference on Zoology and Zoonoses: an overview of topics and contributions 3

POPULATION GENETICS AND MOLECULAR BIOLOGY

- Ilkova J., Michailova P., Szarek-Gwiazda E., Kownacki A. & Ciszewski D.** – The response of genome of the Chironomidae (Diptera) to heavy metal pollution in two rivers of southern Poland 9
- Antov M., Stoyanov I., Stojanova A. & Staykova T.** – Genetic variability of species of the genus *Eupelmus* Dalman, 1820 (Hymenoptera: Eupelmidae) based on allozyme markers 17
- Georgieva V. H., Petrov P. P., Staykova T. A., Lazarov S., Stoyanov I. Y. & Ivanova E. N.** – Genetic comparison between local *Apis mellifera macedonica* Ruttner, 1988 selectively reared for production of bee queens and swarms in Bulgaria and honey bee colonies with indicative hygienic behaviour 25
- Stoyanov I. Y., Staykova T. A., Vasileva P. L. & N. Ivanova E. N.** – Genetic variability in populations of *Messor barbarus* (L., 1767) (Hymenoptera: Formicidae) from Bulgaria based on isoenzyme analysis 31
- Gevezova M., Tserkova F., Kirilova I., Hubenova T., Zaikov A., Ivanova A., Yankova M. & Denev I.** – Potential of PCR-based molecular diagnostic methods for rapid detection of bacterial pathogens causing economically important diseases in fishes 37
- Tserkova F., Gevezova-Kazakova M., Gospodinov G., Kirilova I., Klisarova D., Hubenova T. & Denev I.** – Genetic diversity and geographic distribution of round goby *Neogobius melanostomus* (Pallas, 1814) (Perciformes: Gobiidae) as revealed by mt DNA cyt b gene haplotypes 41
- Mitkovska V. I., Dimitrov H. A. & Chassovnikarova T. G.** – *In vivo* genotoxicity and cytotoxicity assessment of allowable concentrations of nickel and lead: comet assay and nuclear abnormalities in acridine orange stained erythrocytes of common carp (*Cyprinus carpio* L.) 47
- Chassovnikarova T. G., Atanasov N. I., Dimitrov H. A. & Mitkovska V.** – Karyotypic characterization of the harvest mouse *Micromys minutus* (Pallas, 1771) (Rodentia: Muridae) from Upper Thracian Valley, South Bulgaria 57
- Markov G. G., Colak E., Yigit N., Kocheva M. A., Gospodinova M. K. & Dimitrov H. A.** – Population epigenetic diversity versus subspecies detachment of the forest dormouse, *Dryomys nitedula* (Pallas, 1778) (Rodentia: Gliridae), in a long distance transect in Eurasia: implication for its conservation 61
- Heredia-Rojas J. A., Beltcheva M., Rodríguez-De la Fuente A. O., Heredia-Rodríguez O., Metcheva R., Rodríguez-Flores L. E., Santoyo-Stephano M. A. & Castañeda-Garza E.** – Evidence of genotoxicity induced by 60 Hz magnetic fields on mice bone marrow as assessed by *in vivo* micronucleus test 69

BIODIVERSITY, ECOLOGY AND CONSERVATION ZOOLOGY

- Tasevska O., Špoljar M., Gušeska D. & Kostoski G.** – Summer rotifer assemblages in three reservoirs in the Republic of Macedonia 77
- Yancheva V., Mollov I., Georgieva E., Stoyanova S., Tsvetanova V. & Velcheva I.** – *Ex situ* effects of chlorpyrifos on the lysosomal membrane stability and respiration rate in Zebra Mussel, *Dreissena polymorpha* (Pallas, 1771) ... 85
- Šaganović I. D., Tomić V. T., Lučić L. R. & Miličić D. M.** – The first finding of *Lepidurus couesii* Packard, 1875 (Crustacea, Notostraca) in Western Balkans: A record based on the level of development of diagnostic body characters in a bisexual population from Serbia 91
- Vasileva P. L., Hubenova T. A., Zaikov A. N. & Stoyanov I. Y.** – Morphometric variability, allometric growth and sexual dimorphism in narrow-clawed crayfish, *Astacus leptodactylus* Eschscholtz, 1823 (Crustacea: Decapoda) during the ontogenesis 99
- Boyadzhiev P., Mirchev P. & Georgiev G.** – Species of the genus *Ooencyrtus* Ashmead, 1900 (Hymenoptera: Encyrtidae), egg parasitoids of *Thaumetopoea solitaria* (Lepidoptera: Notodontidae) in Bulgaria 107
- Boyadzhiev P. S., Yefremova Z. A., Tozlu G., Yusuf O. Mergen Y. O. & Mete O.** – Description of *Stepanovia fructirosae* sp. n. (Hymenoptera: Chalcidoidea: Eulophidae) from Turkey 113
- Yefremova Z. A., Yegorenkova E. N., Stojanova A. M. & Boyadzhiev P. S.** – A new species of *Omphale* Haliday, 1833 (Hymenoptera, Eulophidae) from Bulgaria 119
- Zaemdzhikova G. I.** – Ichneumon Wasps (Hymenoptera: Ichneumonidae) reared from tortrix moths (Lepidoptera: Tortricidae) in oak forests in Sofia Region, Bulgaria 123
- Ganeva D. J.** – Horse flies (Diptera: Tabanidae) in the Rila Mts., Bulgaria 131

CONTENTS

Contents continued from back cover

Gurgulova K. I., Orozova P. S., Panayotov M. V., Zhelyazkova I. Z., Takova S. B. & Guncheva R. P. – isolation and identification of some Gram-positive bacteria causing infections in silkworm <i>Bombyx mori</i> L. (Lepidoptera).....	139
Gecheva G. M., Varadinova E. D., Belkinova D. S., Mihov S. D., Gyuzelev G. A. & Hristeva Y. G. – Ecological status assessment of a hypersaline lake: a case study of Atanasovsko Lake, Bulgaria	145
Pehlivanov L. Z., Apostolou A. J. & Wolfram G. – Development of Bulgarian Fish Based Index for ecological classification and monitoring of natural riparian lakes (Type L5/L-EC-1).....	153
Stoyanova S. G., Velcheva I. G., Yancheva V. S., Mollov I. & Georgieva E. S. – Biomarkers for <i>ex situ</i> exposure of the common carp, <i>Cyprinus carpio</i> L., to Ni and Pb contaminations.....	163
Zhelev Z. M., Tsonev S. V. & Arnaudova D. N. – Health status of <i>Pelophylax ridibundus</i> (Pallas, 1771) (Amphibia: Ranidae) in a rice paddy ecosystem in southern Bulgaria: body condition factor and fluctuating asymmetry.....	169
Mihtieva P., Karpuzova P., Marin S., Zhelev P., Gradev G. & Marinov D. – Correlation between the choice of partner and the individual nesting territory in the lesser kestrel, <i>Falco naumanni</i> Fleischer, 1818, and preconditions for polyandry	177
Metcheva R., Beltcheva M., Kalinova G., Marinova M., Heredia Rojas J. A. & Peneva V. – Organochlorine pesticides in feathers of penguins of the family Pygoscelidae from Livingston and Peterman Islands, Western Antarctica...	183
Zorenko T. A. & Atanasov N. I. – Patterns of Behaviour as an Evidence for the Taxonomical Status of <i>Lasiopodomys</i> (<i>Stenocranius</i>) <i>gregalis</i> (Pallas, 1779) (Rodentia: Arvicolinae).....	189
Markov G. G., Colak E., Yigit N., Kocheva M. A., Gospodinova M. K. & Dimitrov H. A. – Population epigenetic diversity versus subspecies detachment of the forest dormouse, <i>Dryomys nitedula</i> (Pallas, 1778) (Rodentia: Gliridae), in a long distance transect in Eurasia: implication for its conservations.....	199
Pandourski I., Metcheva R., Beltcheva M. & Yankov Y. – Fauna of bats (Mammalia: Chiroptera) from Sakar Mountain, South-eastern Bulgaria.....	205
Ivanova S. – Influence of tourists on the summer bat colonies in the Devetashka Cave, Bulgaria.....	211
Vlasseva A., Chassovnikarova T. & Atanassov N. – Autumn-winter diet and food niche overlap between red fox (<i>Vulpes vulpes</i> L., 1758) and golden jackal (<i>Canis aureus</i> L., 1758) in two regions in Bulgaria	217
ONE HEALTH	
Arnaudov A. D. & Arnaudov D. Y. – Ixodid Ticks on Domestic Ruminants: an Investigation in the Valley of Maritsa River in Plovdiv Region, Bulgaria.....	221
